

## Our Big Vision

An Australia where everyone has a stable place to call home - no matter if they're rich or poor.

## Our Single Mission:

To harness the ability of the private sector and collaborate to address the chronic shortage of low income affordable housing.

### WHO WE ARE:

We are a group of private sector individuals and corporates with a shared vision that it is in Australia's long term economic interest to house all Australians, including those on low incomes. Unless we do, we will be leaving a significant burden for future generations, with disastrous economic and social consequences. We are classified as a Public Benevolent Institution with full tax deductibility benefits.

### OUR UNIQUE POSITION:

We are a private sector group using a commercial lens to help address Australia's chronic shortage of low-income affordable housing.

### OUR VALUES:

- Thinking with an inter-generational perspective
- Delivering long term value to Australian taxpayers
- Bipartisan collaboration

### OUR ROLE:

- To harness the goodwill that exists within the private sector to develop strategies, take actions and raise awareness in respect to the fundamental human need for shelter.
- To increase the availability of, and access to, affordable housing for those on low incomes in order to relieve poverty, distress or disadvantage.
- To highlight long term accountability and demonstrate economically based solutions to house all Australians free from political bias.
- To provide a forum for the sharing of facts, ideas, experience and private sector skills around the creation of affordable housing options throughout Australia.

## OUR STRATEGIC PRIORITIES

IMMEDIATE → MEDIUM TERM → LONG TERM

Provide short term shelter in under-utilized infrastructure

Quantify the long term economic consequences of NOT providing housing for all

Increase the supply of rental housing on Government land for diverse incomes

Create a financial mechanism for private sector developments to provide low income affordable housing mixed with private rental

## OUR AMBITIOUS PROJECTS

### POP UP SHELTERS

Deliver short term transitional housing in existing buildings that are sitting idle and going through a long redevelopment process.

### ECONOMIC STUDY

Undertake an independent national bipartisan study to demonstrate the long term economic impact for future generations of not providing housing for all.

### BUILD TO RENT

Convince super funds to undertake commercial developments on Government land under a long term lease agreement rather than Government selling the land to the private market.

### AFFORDABLE HOUSING

Create a new instrument to subsidise the incorporation of low income housing into Build-to-Rent housing and apartment developments.
